

MONDIAL PACK

Contract Manufacturing & Packaging

Enschede, 7 March 2024

Dear customer,

We are proud to share with you that, after a challenging period of recovery and reconstruction, Mondial Pack has now also achieved the IFS Food certification at our new location.

As I'm sure you know, we experienced a devastating fire in early January that completely destroyed our facility.

Thanks to the tireless efforts of our dedicated team, the support of our customers, suppliers and partners, we have managed to restore our resources, align our quality system and, as the icing on the cake, achievement of the IFS certification at a higher level.

This certification not only marks a milestone in our recovery process, but also reaffirms our commitment to maintaining the highest standards in quality, food safety and reliability.

Other big news we were able to celebrate is first production on our new softgel production line. Mondial Pack is once again your partner for the production of softgels.

We are grateful for the support and trust we have received during this challenging period and are committed to continuing our mission to provide our customers with the best products and services.

We would like to take this opportunity to thank everyone who contributed to the results achieved and maintaining confidence in Mondial Pack.

Kind regards,

Mondial Pack B.V.
